

RSP Consulting Engineers LLP

ENVIRONMENTAL POLICY

It is the policy at RSP Consulting Engineers LLP, to respect the Environment and to be committed to and responsible for the environmental performance of the company.

The company's Environmental Management System, which has been developed against the requirements of ISO 14001:2004, works on the basis of continual improvement and is regularly audited.

Management ensure that all employees at appropriate levels are trained and developed to understand, implement, maintain and improve the environmental objectives set at the company's Management Review Meeting, and further detailed in the company's environmental management programmes, and in the achievement of the company's environmental goals and objectives, which are defined and reviewed annually, at the company's Management Review Meeting.

Where possible, the company reduces, re-use and recycle all materials to minimize waste and use environmentally responsible suppliers and sub-contractors in order to minimize the use of polluting releases and energy as efficiently as possible.

The company strives to comply, at minimum, with all regulatory and legislative requirements, and to this end this policy is reviewed and updated, as required, at monthly management meetings.
